Customization:

Memorial customization can occur in a variety of ways. We are here to help assist you in making your memorial unique and profoundly personal. Consider the following custom options:

- Personalized Bronze Plaque
- Laser Etched Photos & Scenes
- Full Color Portrait Inserts
- Granite Sculptures & Statues
- Custom Colored Carvings
- Memorial Vases

*Actual granite colors may vary from printed color swatch. Not all granite colors shown. Contact the Lake View Cemetery Office to review all granite colors and lettering options.

100%
SATISFACTION
GUARANTEE

If you are dissatisfied with your memorial, Sunburst Memorials will rework it or replace it to your complete satisfaction.

Non-denominational Chapel

Interment at Lake View Cemetery includes the use of our non-denominational chapel for your loved one's funeral service at no cost to you or your family.

The chapel is located in our administration building (see below) at the entrance to the cemetery. Use of the chapel includes a casket bier, torchiere floor lamps, officiant lectern, restrooms and comfortable seating for up to 35 guests. For availability or chapel questions, contact our office at (906) 337-2510.

Columbarium Niches

Niche Dimensions:

11.375"W x 11.375"H (front), 8.5"W x 8.5"H (back), 9.5" (depth)

The columbarium is located next to the visitors' gazebo as you enter the cemetery. Above: Cutaway view of the interior of a niche.

Lake View Cemetery offers an outdoor columbarium for the interment of cremains. Each individual niche is constructed of weather-resistant materials and permanently sealed with interior (plastic) and exterior (granite) compartment covers.

Memorial Plaque

Your loved one(s) will be memorialized with a permanent plaque that includes their name(s) and birth & death dates. The last name is displayed in the center of the plaque for ease of identification and respectful prominence.

Decorative Cast Bronze

Each memorial plaque is cast in life-time bronze with raised lettering and a classic brown finish. A rose and leaf motif tastefully adorns each corner of the cross-like plaque for added beauty.

Burial Plot Ground Restoration

- ✓ Screened Topsoil
- ✓ Keweenaw Class A Grass Seed
- ✓ Starter Fertilizer
- ✓ Watering (2 Seasons)

Lake View Cemetery also offers sod installation for those who prefer instant turf over grass seed

Over time and through each Copper Country season, ongoing environmental changes affect our cemetery grounds. Frost, erosion, tree root expansion, severe heat and subsoil changes from burials can lead to uneven turf and poor grass growth. The staff at Lake View Cemetery is dedicated to providing continual grounds maintenance for families of the interred and to the many visitors that search our 140 acres each year.

What does Ground Restoration include?

Ground restoration of your loved one's burial plot includes all processes necessary for new turf growth. These include:

- Removal of any debris (rocks, branches, etc.) from existing turf
- Ground leveling with screened topsoil
- Seeding (Keweenaw Class A Grass Seed)
- Fertilizing new seed with a starter fertilizer
- Topdressing seed/fertilizer with layer of straw
- Routinely watering soil through seed germination
- Realign memorial and/or repair sunken base (if required)
- Clean memorial; Attend to decorations (if required)

New grass will be watered to promote root development over the course of two (2) growing seasons.

Memorial Cleaning

Restorative Cleaning *with Dignified Care*

Granite memorial tablet showing the difference between an aged surface and a cleaned surface.

MEMORIAL CLEANING IS ALWAYS PERFORMED WITH DIGNITY & RESPECT

Natural stone materials such as limestone, marble, granite, slate and sandstone are all susceptible to a wide variety of organic contaminants. Mosses, mold, mildew, algae, lichen, acidic bird droppings and windblown dirt can frequently be found covering – and growing on – memorials each year.

If your interested in having a memorial cleaned, contact the LVC Office to schedule a consultation.

Deep Cleaning

After an inspection is completed, the cleaning process can begin. The surface of the memorial is saturated in water and a mild degreasing agent is applied. The memorial is hand scrubbed using a soft bristle brush. Various detailing tools are used to clean recessed areas in the stone and around lettering.

If your memorial is approved for the use of pressurized water, this technique will be used to clean creases, corners and surface staining. Extreme care will be provided to the memorial during each step of the cleaning process.

Perpetual Decoration *for Memorials*

Live Geranium & Petunia Planter Decorations

PERPETUAL DECORATION AGREEMENT

The Lake View Cemetery Perpetual Decoration Agreement is a one-time charge per decoration with no more than two (2) decorations on any one burial plot. Decorations are ordered by the cemetery and placed at memorials when weather permits. The decorations are cared for throughout summer by cemetery personnel and removed in early October.

Lake View Cemetery offers three different perpetual floral planter decorations. All styles feature live geranium and petunia flowers in an assortment of colors.

Garden Grace Planter Stand

Stand Height:
25"

Planter Size:
20" Diameter

Horizontal Ground Box

Box Height:
7"

Box Size:
30" L x 7" W

Glacial Urn Planter

Urn Height:
25"

Planter Size:
20" Diameter

For memorials with an integral vase(s), we offer a premium 12" silk floral arrangement that resists sun fading and withstands the elements for a fresh look through summer.

Contact the LVC Office with any questions about our decorations or to place an order.
